

Projects

"Holiday Wrap"

Placement of designs will be easy with the use of the Ellisimo upgrade camera function and the positioning sticker.

Skill Level: Intermediate

Created by: Diane Kron, Embroidery and Software Project Manager

Supplies:

Baby Lock® Ellisimo sewing and embroidery machine using the 200mm x 200mm hoop
Winter Jewels Amazing Design's Collection (AD-ZIE05)
Vogue pattern 7161 View B
Silk fabric (yardage according to pattern)
Baby Lock Tear-Away stabilizer
Temporary spray adhesive
Madeira threads (silver metallic)

Embroidery:

1. Follow the directions for View B on the pattern to cut out the pattern from the fabric. Fuse the interfacing to the bottom edge of the sections.
2. Set the machine up for embroidery and retrieve design #27025. There will be five designs embroidered on the large bottom edge on the wrap. Place the positioning sticker at one of the rounded corners at the bottom of the wrap. Be sure that the larger circle is placed toward the bottom edge of the fabric. The design should be placed at least 1½" up from the edge to allow for the seam allowance.
3. Hoop the tear-away stabilizer in the hoop and spray with the temporary spray adhesive.
4. Place the positioning stickered fabric in the center of the hoop. Select the positioning sticker icon on the machine and scan for the sticker. The design will automatically be placed in the same orientation as the sticker.
5. Click on the monochromatic icon to change the thread colors to one color and embroider the design.
6. To embroider the last four designs, hoop the tear-away stabilizer and spray with the temporary spray adhesive. Place the bottom edge of the wrap in the center of the hoop with the embroidered design placed at the bottom edge of the hoop. Select the camera and scan the fabric. After the fabric appears on the screen, move the same design into position so that the design is approximately one inch away from the last embroidered design and placed the same distance from the bottom edge as with the first design. The design will be shown on the fabric scan. Click on the monochromatic icon to set to one color. Repeat for the remaining three hoopings.
7. Follow the remaining directions on the pattern guide sheet to finish the wrap. Have a wonderful Holiday!
