I LOVE TO FIND THINGS THAT MAKE LIFE EASIER...

*The Baby Lock Embroidery Professional Plus
is one of those things.*

Those of us who love to embroider have been amazed by the advancements in embroidery machines over the years. There's nothing more rewarding than to see beautiful embroidery designs come to life. With 6 needles, my designs are sewn out in no time at all. The easy-to-use features that we are accustomed to from Baby Lock are all there, plus an array of optional accessories that are great for those business-minded people.

In fact, the Baby Lock Embroidery Professional Plus is so easy to use, even non-sewers have approached the machine and found themselves embroidering in no time! Take Cary, for example. Cary was new to the sewing world, but the Embroidery Professional Plus was so simple to learn, she soon found herself stitching with industrial power that even experienced sewers have yet to attempt! I'd love for Cary to share her Embroidery Professional Plus story with you, too.

WHEN LIFE GIVES YOU LEMONS...

Embroider them with the Embroidery Professional Plus!

Sometimes life can take you on an expected adventure. So, when my husband was out of work for a period of time, I started thinking of ways to help my family. Although a lemonade stand may have helped, the answer I found was an embroidery business.

Now, I wasn't an expert at all — in fact, I didn't know how to sew — but when I visited my Baby Lock Retailer, he showed me how simple it was to thread, operate and edit on the Embroidery Professional Plus. That's when I knew that I could actually do this! The rest, as they say, is history.

With 6 needles and the speed of the Embroidery Professional Plus, I can keep up with my customers, with editing options to give all my ready-to-embroider products a unique embroidered touch. And with so much ease, I can program my settings, hit "start", and get back to where it all started — spending time with my family.

6 NEEDLES — THE NEXT STEP IN EMBROIDERY

Ready to take that next step in your embroidery? The Embroidery Professional Plus brings the luxury of 6 needles and professional speed to your home in a more compact, easy-to-thread machine — unlike the industrial models. Multi-color designs, large motifs and ambitious projects can be completed with minimal thread changes at a speed of 1,000 spm.

Cary

“Trust me — if I can handle 6 needles, anyone can! The easy-to-follow thread paths and push button needle threader made setting up the machine a breeze. And when I first started getting larger orders, I immediately appreciated these features.”

THE TRUVIEW™ LCD DISPLAY IS EASY ON THE EYES!

View your designs on the gorgeous HD LCD TruView™ Display, with 480 x 800 pixels for the utmost clarity. Plus, enjoy an 8.5" LCD display with a wide 160° viewing range to perfectly see your work from any angle. You'll find ease as well, with a home page button for fast Main Menu access and adjustable thumbnails and background colors.

Changes can be viewed instantly onscreen — the Embroidery Professional Plus processes information in fractions of a second to instantly update displays of your stitch count, estimates stitch time and other design elements.

Nancy

"I love that I can adjust the thumbnail sizes instead of squinting. And I can finally edit light-colored designs as easy as the rest, simply by switching the screen background to a dark color!"

ENDLESS EDITING CAPABILITIES FOR AN ENDLESS VARIETY OF EMBROIDERY NEEDS

Personalized embroidery will never go out of style. From wedding gifts and infant garments to company logos to sports teams, there will always be a demand for customizing clothing and other items.

The Embroidery Professional Plus makes every step faster. Edit designs onscreen simply by dragging and dropping. Combine, reposition, resize, rotate, mirror and change the thread colors of your designs, with changes instantly seen onscreen.

Choose from 28 built-in fonts to personalize projects, including Greek lettering, a large floral alphabet, and three monogram fonts. Plus choose from 4 hoops, 60 built-in designs, continuous border capabilities and 120 frame combinations. View, edit and manipulate embroidery designs onscreen. Effortlessly bring in designs from a PC or thumb drive with USB connectivity, plus easily install upgrades for the most up-to-date features.

Cary

"I really appreciated all of the built-in fonts, designs and frames when I first started my business. It was really fun to use the editing tools to see what additional designs could be created. Customizing is what my customers want and I can easily provide what they need."
