Embroidery Software Classes

Designer's Gallery and How it all Fits	B	StudioPlus, Studio III, DensityWorks, SizeWorks, CustomWorks II, HoopWorks, MonogramWorks, MasterWorks Lite, MasterWorks II, Interactive Embroidery	April Dunn	Not sure what the different Designer's Gallery® programs do or what you might need? Wonder why everyone who uses Designer's Gallery® software loves the different programs and their ease? This class is an overview class that goes through how all the Designer's Gallery programs fit together...from platforms to Studio tool packs to digitizing to more...we'll discuss it all.
---	----------	--	------------	---

Studio[™] & Studio Tools

Fundamentals of StudioPlus	B	StudioPlus, ColorWorks	April Dunn	Designer's Gallery StudioPlus is an Embroidery Management Software. This program is a must-have for every embroidery design collector! Convert, catalog, and color sort your collection of embroidery designs with ease. Join us for this class and learn all the basics about using the main features in Designer's Gallery StudioPlus including ColorWorks.
Studio III – What Makes it Different	B	Studio III	April Dunn	Wonder what all the hype is about upgrading to Studio™ III? This class is an overview that covers all the new and enhanced features in Studio™ III above what StudioPlus has to offer. Whether you own Studio III already or are just taking a look at the new features, we hope after taking this class you'll be as excited as we are about what this program has to offer. Note, this class includes a list of all features demonstrated and was formerly called "What's New in Studio III".

Class Title	Level	Product(s) Featured	Instructor	Description
Getting Started with Studio III	B	Studio III, ColorWorks	April Dunn	You have an embroidery design and are wondering how you're going to get it ready to stitch? Studio III is the latest version of Designer's Gallery Studio software and this class explores some of the basic features in Studio III to help you get your design ready for and take the design to your machine. This class covers such Studio III features as Color Sort/Creating a Basting file/Creating Notes/Converting file formats/Reduce Needle Count/Printing a placement template/various thread color conversion options including using ColorWorks...and more. This is one of two basic classes that cover the many features offered in Designer's Gallery® Studio III.
Can't Get Enough of Studio III	B	Studio III	April Dunn	<p>You have a bunch of designs and you're confused on how to find them or work with them all at one time. Studio III is embroidery management software and a must-have for every embroidery design collector! No matter how large your collection grows, this advanced design management software allows you to quickly catalog, cross reference, and instantly find your designs later. This class explores additional features in Studio III not covered in the "Getting Started with Studio III" class. We will approach various scenarios that help you work with single and multiple designs at a time. This class covers such features as Cataloging designs/Printing a Catalog of your designs/Batch format conversion/Batch Notes/Send to Layout/Save to BMP...and more along the way.</p> <p>We recommend taking Sew@Home class "Getting Started with Studio III" prior to taking this class.</p>
DensityWorks Difference	B	DensityWorks <i>Class Demo Through:</i> StudioPlus, Studio III, CustomWorks, CustomWorks II	April Dunn	We think that Designer's Gallery DensityWorks is an important part of any embroiderer's software library. Join us for this class and see why we feel this way. We will cover all the basic functions of DensityWorks so this is a great class whether you just got the program, owned it a long time or want to see what it is all about. Exercises include using the program as a stand-alone and as a tool pack.

Class Title	Level	Product(s) Featured	Instructor	Description
Resizing Made Simple	B	SizeWorks <i>Class Demo Through:</i> StudioPlus, Studio III, CustomWorks, CustomWorks II	April Dunn	Ever want to make your design bigger, smaller, thinner, fatter, taller or shorter and have the stitch count to adjust accordingly...even specialty fills? Want to take a design and resize it to fit a specific hoop you're planning to use? With SizeWorks™ from Designer's Gallery all this and more is possible. In this class we will run through a number of resizing exercises to explore SizeWorks features and functions. We will do exercises using SizeWorks as a stand-alone program, as well as through the Studio™ III/StudioPlus™ and CustomWorks™ II programs.
HoopWorks Basics	B	HoopWorks <i>Class Demo Through:</i> StudioPlus, Studio III, CustomWorks, CustomWorks II	April Dunn	Do you have a machine with a smaller hoop, but still want to use larger designs-bigger than your maximum embroidery field? Do you have a multi-position hoop and want to know how to break a design to use with it? How about software that automatically breaks a large design for use with a specific hoop? Your software prayers have been answered with the Studio tool pack HoopWorks from Designer's Gallery. In this class we will run through a number of exercises to explore the features in HoopWorks to split designs. We will discuss how you can use HoopWorks for both multi-position hoops and multi-fabric hooping stitch outs. We will also discuss how using a template created in CustomWorks or Studio program will help get the design stitched 'back together' and look perfect. This class covers the basic features of HoopWorks.
CardWorks II	B	CardWorks II <i>Class Demo Through:</i> StudioPlus, Studio III, MasterWorks II, CustomWorks, CustomWorks II	Lora Kesilis	If you need help getting started with CardWorks II, this is your class. Learn how easy it is to select the designs you want to embroider and write them to your programmable card. You will be shown how to use CardWorks as a tool pack through Studio, CustomWorks or MasterWorks II, and you will also have a chance to see how to run CardWorks II as a stand-alone program. CardWorks II is taught "By Request Only". To request the class, please email sewathome@tacony.com . Include in your request the day of the week and whether you prefer morning, afternoon or evening classes.

-------------	-------	---------------------	------------	-------------

CustomWorks[™] Programs

CustomWorks I and II – The Basics	B	CustomWorks, CustomWorks II	April Dunn	Join this class and learn how to merge, edit, and customize designs in CustomWorks/CustomWorks II. From adding color stops to editing stitches and even distorting designs, CustomWorks/CustomWorks II will allow you to make changes to you designs with just a few easy clicks of the mouse. Also learn how the other Designer's Gallery tool packs work with CustomWorks/CustomWorks II and are beneficial to make editing a breeze.
CustomWorks II - Beyond the Basics	B	CustomWorks II	April Dunn	Beware! This software may be addictive. Join me for an hour or so to learn how to use all of the cool new features and Design Decoration Tools in CustomWorks II. From using the new Navigator window to creating quilt blocks with the new Carousel tool or perfect placement with Place and Stitch, a software program has never been sew much fun. You can even create crystal templates with the Accent tool and use the Scatter tool to create fabric patterns. This class will NOT cover the basics, so it is highly recommended that you take CustomWorks - The Basics before taking this class.
CustomWorks II – What's NEW	B	CustomWorks II	April Dunn	Wonder what all the excitement is about with the new CustomWorks II? What are the new features that make it worth upgrading to CustomWorks II? This class is an overview that demonstrates all the new and enhanced features in CustomWorks II above what CustomWorks has to offer. Whether you own CustomWorks already or want to take a look at the new features we just added, we hope after taking this class you'll be as excited as we are about what this program has to offer. Note-this class includes a list of all features demonstrated.

Class Title	Level	Product(s) Featured	Instructor	Description

EmbroideryWorks[™] Programs

EmbroideryWorks Basics	B	EmbroideryWorks Everyday ; EmbroideryWorks Advanced	April Dunn	<p>The most popular features in software have come together in EmbroideryWorks, from sizing and density control to basic lettering. EmbroideryWorks[™] Everyday comes with the essential tools you'll use daily all bundled into one package. Join us as we cover the basic features included in both EmbroideryWorks programs.</p> <p><i>EmbroideryWorks[™] Advanced owners: It is suggested you take this class before taking for "EmbroideryWorks - After the Basics" class.</i></p>
EmbroideryWorks – After the Basics	B	EmbroideryWorks Advanced	April Dunn	<p>Now that you have taken the EmbroideryWorks[™] Everyday class and have a good working knowledge of the basics in this incredible program, you are ready to move on and explore the additional features EmbroideryWorks[™] Advanced has to offer. This class is designed to give you an overview of the additional features included in EmbroideryWorks[™] Advanced, such as Stitch Editor; Font Importer; Stitch Perfect processor; Instant Repeat and MORE!</p> <p><i>It is highly suggested you take "EmbroideryWorks Basics" before taking this class.</i></p>
EmbroideryWorks - Lettering	B	EmbroideryWorks Everyday; EmbroideryWorks Advanced	April Dunn	<p>To be announced</p> <p><i>This class includes Lettering features included in EmbroideryWorks[™] Everyday and EmbroideryWorks[™] Advanced.</i></p>

QuiltWorks™ Programs

QuiltWorks II – Getting Started	B	QuiltWorks II <i>Class Demo Through:</i> StudioPlus, Studio III, CustomWorks	Lora Kesilis	<p>Learn the basics of working with this unique digitizing program designed specifically for quilters. Learn how easy it is to create Redwork embroidery designs, appliqué designs, quilting motifs, and automatic stippling. You will also learn how to run QuiltWorks as a tool pack through Studio or CustomWorks, and see that you can also run QuiltWorks as a stand-alone program.</p> <p>A note to owners of QuiltWorks I: Although the exercises shown in this class can also be done in QuiltWorks I, the layout of the design page is different. You may prefer to take QuiltWorks I - The Basics.</p> <p>QuiltWorks I - The Basics is taught "By Request Only". To request the class, email sewathome@tacony.com. Include in your request the day of the week and whether you prefer morning, afternoon or evening classes.</p>
Exclusively QuiltWorks II	B	QuiltWorks II	Lora Kesilis	<p>Do you need help getting a handle on the new features of QuiltWorks II? Come see what the new features are in QuiltWorks II and how those features will make it faster and easier to create embroidery and quilting designs. Note-this class was formerly called "QuiltWorks II - Getting Started with the New Features".</p> <p>A note to owners of QuiltWorks I: If you would like to see what was added to version two of QuiltWorks, you will enjoy this class. However if you are looking for instructions on how to use QuiltWorks version one, then you may prefer taking QuiltWorks I – The Basics.</p> <p>QuiltWorks I – The Basics is taught "By Request Only". To request the class, please email sewathome@tacony.com. Include in your request the day of the week and whether you prefer morning, afternoon or evening classes.</p>

Class Title	Level	Product(s) Featured	Instructor	Description
QuiltWorks II - Stippling & Sashiko	B	QuiltWorks II	April Dunn	QuiltWorks II is a unique Designer's Gallery program in that it has features that focus on quilting type techniques, but done embroidery style. In this class we are going to focus on two of the many features Stippling and Sashiko. Join us to explore these two open stitch techniques the QuiltWorks II way.
QuiltWorks I – The Basics	B	QuiltWorks <i>Class Demo Through:</i> StudioPlus, Studio III, CustomWorks	Lora Kesilis	Learn the basics of working with this unique digitizing program designed specifically for quilters. Learn how easy it is to create Redwork embroidery designs, appliqué designs, quilting motifs, automatic stippling, and Sashiko quilting designs. This class covers features and methods in the <u>original QuiltWorks™ program only</u> . QuiltWorks I – The Basics is taught “By Request Only”. To request the class, please email sewathome@tacony.com . Include in your request the day of the week and whether you prefer morning, afternoon or evening classes.

LetterWorks™ Programs

A To Z with LetterWorks III	B	LetterWorks III <i>Class Demo Through:</i> StudioPlus, Studio III, CustomWorks, CustomWorks II	Lora Kesilis	Use LetterWorks III and you will have the easiest and most professional looking lettering at your fingertips. Learn how to use the professionally digitized fonts included in LetterWorks with your embroidery collection for custom looks. See how using Recipes will make it easy embroider lettering on any fabric. In this class you will see how easy it is to use LetterWorks III as a stand-alone program, and you will learn how to run it as a tool pack with Studio or CustomWorks.
------------------------------------	----------	---	--------------	---

Class Title	Level	Product(s) Featured	Instructor	Description
Creative Lettering with LetterWorks III	B	LetterWorks III	Lora Kesilis	Take your lettering to a new level of creativity with LetterWorks III. Use the professionally digitized fonts included in LetterWorks III to add wonderful creative lettering quickly and easily to all of your embroidery projects. After taking this class you will be able to use the outline fonts to change the style of your lettering, add multiple colors to your lettering, stretch and skew the shape of your letters and even create lettering that follows a path designed by you! If you are ready to have some creative fun with your lettering, this class is the one for you.
LetterWorks II – All About Fonts	B	LetterWorks II, LetterWorks <i>Class Demo Through:</i> StudioPlus, Studio III, CustomWorks, CustomWorks II	Lora Kesilis	Add the LetterWorks II tool pack to your CustomWorks or Designer's Gallery Studio and you have access to over 130 professionally digitized embroidery fonts. Learn how to use LetterWorks to create lettering quickly and easily. Class will include creating lettering and combining lettering with embroidery designs. See all types of lettering including Normal Frame lettering, Multi-Line lettering, Shaped lettering, Circular lettering, Multi-Colored lettering, Vertical lettering, and Monograms. LetterWorks II– All About Fonts is taught “By Request Only”. To request the class, please email sewathome@tacony.com . Include in your request the day of the week and whether you prefer morning, afternoon or evening classes.

Class Title	Level	Product(s) Featured	Instructor	Description
-------------	-------	---------------------	------------	-------------

Quilt LabelWorks™

Quilt LabelWorks Fonts, Frames, and Fun	B	Quilt LabelWorks	Lora Kesilis	Join us for this class and learn how easy it is to combine the frames, fonts, and decorative embroidery patterns built into Quilt LabelWorks to create your own custom embroidered labels. The class covers how to use the different elements, and how to edit both the text and the embroidered frames and decorations. You will see how easy it is to combine embroidery patterns you already own with the elements included in Quilt LabelWorks. And you will even learn how to use copy and paste so you don't have to type that whole poem!
--	----------	------------------	--------------	--

MonogramWorks™

MonogramWorks - A Touch of Class	B	MonogramWorks	April Dunn	There's nothing like a monogram to add a "touch of class" to your clothing and other personal items or to personalize a gift for that special someone. MonogramWorks is a user friendly, feature packed program that accepts additional font and design packs from Designer's Gallery. It will have you on your way to fancy lettering and Monograms in no time. Join this class and learn how to make MonogramWorks work for you.
---	----------	---------------	------------	--

MasterWorks™ Programs

Exploring MasterWorks	B	MasterWorks II, MasterWorks, MasterWorks Lite	Lora Kesilis	Transform artwork into beautiful embroidery using a multitude of stitch effects and design options to create one-of-a-kind masterpieces. Accomplish all of this while working on one design page environment! Never before has digitizing been so easy!
------------------------------	----------	---	--------------	---

Class Title	Level	Product(s) Featured	Instructor	Description
MasterWorks A Through Z	B	MasterWorks II, MasterWorks, MasterWorks Lite	Lora Kesilis	Adding lettering to your embroidery has never been so quick or looked so great. Learn how to use the professionally digitized fonts included in MasterWorks with your embroidery collection for custom looks. See how using Recipes will make it easy to sew on any fabric.
True Type Font Lettering in MasterWorks	I	MasterWorks II, MasterWorks	Lora Kesilis	Adding custom lettering to your embroidery has never been so quick or looked so great. In MasterWorks it is easy to create artwork from the True Type font of your choice. The stitch effect of your choice can then be applied to the artwork. Instead of having lettering automatically digitized, you will have complete control of exactly how the letters will be sewn!
Master the MasterWorks Auto Digitizing Wizard	I	MasterWorks II, MasterWorks, MasterWorks Lite	Lora Kesilis	Learn to control your results when you use the Auto Digitizing wizard. Instead of just clicking "Next", you will learn to use the tools on each page of the Wizard so that when you click "Finish", you will have an embroidery design that is just what you had in mind.
MasterWorks Column Fills - Part 1	I	MasterWorks II, MasterWorks	Lora Kesilis	<p>Have you wondered how to work with the column fill stitch effects in MasterWorks? And have you been puzzled by the differences between the nine column fill effects?</p> <p>In this two part class on column fills you will learn what column fill stitch effects can do to give added depth to the colors in your embroidery, and create texture that will make your designs really pop.</p> <p>Part 1 of this class will cover Column Fill, Jagged Column, Color Blend Column, Gradient Column, and Spiral Column. You will learn how to apply these stitch effects, and how to use inclinations and properties to control the results.</p>

Class Title	Level	Product(s) Featured	Instructor	Description
MasterWorks Column Fills - Part 2	I	MasterWorks II, MasterWorks	Lora Kesilis	<p>Have you wondered how to work with the column fill stitch effects in MasterWorks? And have you been puzzled by the differences between the nine column fill effects?</p> <p>In this two part class on column fills you will learn what column fill stitch effects can do to give added depth to the colors in your embroidery, and create texture that will make your designs really pop. Part 2 of this class will cover Fancy Column, Contour Column, Radial Column, and Auto Column. You will learn how to apply these stitch effects, and how to use inclinations and properties to control the results.</p>
Motifs - Creation and Application	I	MasterWorks II, MasterWorks		<p>Did you know that Candlewicking was originally stitched with heavy cotton threads used for making candle wicks? Most any handwork technique can be re-created for machine embroidery mainly through the use of motifs. This class will teach you how to create and manipulate motifs and provide you with some fun project ideas. You may also pick up a bit of trivia here and there.</p>
Working with Vector Artwork	A	MasterWorks II, MasterWorks		<p>In this class you will see why MasterWorks has the cutting edge over other home digitizing software. We will work with a vector image in its true form and transform the vector artwork image into an embroidery design. You will get answers to questions you may have about vector artwork vs. bitmap artwork.</p>
I've Had My Fill	I	MasterWorks II, MasterWorks		<p>Standard and Fancy Fills</p> <p>Enough is never enough! Even though MasterWorks comes with over 400 fills, it's fun to see what else we can come up with and how we can manipulate what is already there. Come join this class and learn all about the Standard and Fancy fills. I will show you how to create, edit, and apply these fun fills.</p>

Class Title	Level	Product(s) Featured	Instructor	Description
Understanding the Sequence View	B	MasterWorks II, MasterWorks		<p>In this class you will learn:</p> <ul style="list-style-type: none"> • How to manipulate the Sequence View Tool • How different types of artwork appear in the Sequence View • How to move and/or hide segments • How the Ghost Tool works in conjunction with the Sequence View • Many ways to re-sequence segments and other useful tips
Embroidered Crazy Patchwork	B	MasterWorks II, MasterWorks	April Dunn	<p>Crazy Patchwork has been created by hand and machine for a long time using different fabrics and decorative stitches. Why not full embroidered crazy patchwork...but using thread filled areas instead of fabric filled. While creating a crazy patchwork type design learn to apply such tools as slicing, drawing lines, creating borders and more. MasterWorks can be FUN to learn!</p>
Shape is Everything	I	MasterWorks II, MasterWorks		<p>This class is all about mastering the Select and Reform/Shape Tools. You will learn different ways to select objects with the Select and Lasso tools. Master the Reform/Shape tool and all of its components to slice, split, and dig holes and then be well on your way to editing and customizing any artwork. Finish the class by editing a Custom Shape to create a cute picture frame.</p>
Autodigitizing Photos in MasterWorks	A	MasterWorks II, MasterWorks	Lora Kesilis	<p>This class will cover how to turn photographs into embroidery designs. You will learn to use the Photo Stitch Wizard to create Photo embroidery design. You will also see how you can use the Auto Digitizing Wizard to create embroidery designs from your favorite photos.</p>
Tips for Successful Scanning	I	MasterWorks II, MasterWorks	April Dunn	<p>Want to use your own scanned images for creating designs or logos...then this class can help you be more successful. We discuss different options in scanners and other information to help you successfully scan an image for use in a digitized design. We will also cover two ways to process a scanned image in MasterWorks/MasterWorks II.</p>

Class Title	Level	Product(s) Featured	Instructor	Description
Working with a Scanned Image	B	MasterWorks II, MasterWorks	April Dunn	<p>In this MasterWorks class we will be using a scanned image and creating a cute frame design. The image was scanned under the tips set forth in the class Tips for Successful Scanning class so it can be helpful to have already taken that class first, but NOT absolutely necessary. We will be using such techniques as creating a border, motifs and more.</p> <p>Note: There is also a bonus discussion on compensation included with this class.</p>
Embroidered Logos with MasterWorks	A	MasterWorks II, MasterWorks	Lora Kesilis	<p>Learn how to use MasterWorks to meet the special challenges of designing a great embroidered logo. What information should be included in the embroidered design, and what needs to be eliminated? How can you duplicate a distinctive font? How can you handle less than perfect artwork? Join us for this session and see how MasterWorks makes it easy to meet all of these challenges and more.</p>
Working with Quick Picks	I	MasterWorks II, MasterWorks		<p>This class will teach you all there is to know about Quick Picks. It will cover:</p> <ul style="list-style-type: none"> • Creating: Where can I get more Quick Picks? • Applying: How do I use Quick Picks? • Editing: Can I change Quick Picks from those little blue shapes to something else? • Saving: How can I save parts of other files as Quick Picks? • Deleting: If I don't like what I have created, is it easy to delete the Quick Picks?
The MasterWorks Cross Stitch Wizard	I	MasterWorks II, MasterWorks, MasterWorks Lite	Lora Kesilis	<p>Learn how to turn the artwork of your choice into counted cross stitch to be sewn on your embroidery machine.</p> <p>You will also have a better understanding of how to work with the MasterWorks wizards after taking this class.</p>

Class Title	Level	Product(s) Featured	Instructor	Description
Heirloom Holly Border with MasterWorks	I	MasterWorks II, MasterWorks, MasterWorks Lite	Lora Kesilis	Join us for this fun session on creating heirloom quality embroidery with MasterWorks. You will learn how to create and sew a true eyelet with an open center hole, and how easy it is to design a scalloped edge. If you love heirloom sewing, or you want to create beautiful embroidered linens for your home, you won't want to miss this class.
Let's Make Magic	I	MasterWorks II, MasterWorks		The Backdrop Tool opens images from a variety of formats that can be digitized through manual punching with the drawing tools or by using the Magic Wands to define outlines for lines and segments. For this class we will use the Magic Wands and the drawing tools to complete three designs, creating three different effects.
Heirloom Cutwork with MasterWorks	A	MasterWorks II, MasterWorks	Lora Kesilis	Join us for this fun session on creating beautiful cutwork embroidery with MasterWorks. We will explore using the Appliqué tool to create cutwork quickly and easily. We will also work with the pen tool to add custom Richelieu bars to the larger openings of the cutwork. And we can add French knots with the Candlewicking stitches built into the program. If you love heirloom sewing, or you want to create beautiful embroidered linens for your home, you will not want to miss this class. Please note-there is a separate version of this class for MasterWorks Lite.

MasterWorks™ II

What Makes MasterWorks II Different	B	MasterWorks II	April Dunn	This class is an overview that covers all the enhanced features that makes MasterWorks II different from MasterWorks. See how the upgrade features will make it faster, easier and more creative to create your embroidery designs. Whether you are looking at digitizing for the first time or looking to upgrade from MasterWorks or MasterWorks Lite programs, you will see why we are so excited about this program! Note-the class includes a list of all features demonstrated and was formerly called What's New in MasterWorks II.
--	----------	----------------	------------	--

Class Title	Level	Product(s) Featured	Instructor	Description
Patriotic Butterfly	B	MasterWorks II	April Dunn	<p>Our butterfly could be flying around a campaign headquarters, Memorial/Labor Day celebration, or along with the 4th of July fireworks...but it is always showing how patriotic it is by dressing in stars and red, white & blue. This class uses such features as Import Vector Art and Replace found in MasterWorks II to transform a piece of artwork in to a really cute Patriotic Butterfly. Join us for this class and see how MasterWorks II gives you the tools to complete this design easily and help your imagination fly.</p> <p>Note: There is also a bonus discussion on compensation included with this class.</p>

MasterWorks[™] lite

Get Acquainted with MasterWorks Lite	B	MasterWorks Lite	Lora Kesilis	<p>If you are ready to get started with MasterWorks Lite then this is the class for you. You will see how quickly you can create your own custom embroidery and how to edit those embroidery designs. Both the Auto-digitizing wizard and the cross stitch wizard are featured in this class. You will also learn how to bring in a backdrop picture and trace it. You will be shown how to create and sew your own appliqué designs and how to use the text tool create custom monograms and how to add lettering to the embroidery design of your choice.</p>
Crazy Patchwork for MasterWorks Lite	B	MasterWorks Lite	April Dunn	<p>Crazy Patchwork has been created by hand and machine for a long time using different fabrics and decorative stitches. Why not full embroidered crazy patchwork...but using thread filled areas instead of fabric filled. We will start by taking artwork out to a graphic program to slice it into sections, then apply such MasterWorks Lite tools as drawing lines, creating borders and more.</p>

Class Title	Level	Product(s) Featured	Instructor	Description
Using Column Fills in MasterWorks Lite	I	MasterWorks Lite	Lora Kesilis	Have you wondered how to work with the column fill stitch effects in MasterWorks Lite? And have you been puzzled by the differences between the different column fill effects? Come and learn how the column fill stitch effects can add depth and shading to the colors in your embroidery, and create texture that will make your designs really pop.
Heirloom Cutwork with MasterWorks Lite	A	MasterWorks Lite	Lora Kesilis	Join us for this fun session on creating beautiful cutwork embroidery with MasterWorks Lite. We will explore using the Appliqué tool to create cutwork quickly and easily. We will also work with the pen tool to add custom Richelieu bars to the larger openings of the cutwork. And French knots can be added with the motif stitches built into the program. If you love heirloom sewing, or you want to create beautiful embroidered linens for your home, you won't want to miss this class. Please note-there is a separate version of this class for MasterWorks/MasterWorks II.

palette Programs

Palette 9 - So What's New In Palette 9	B	Palette 9	Lora Kesilis	Come see the features of Palette 8, the newest embroidery software to be added to the Palette software line. The changes between Palette 7 and 8 are significant and make Palette both more powerful and easier to use. So take this opportunity to see what makes this program so outstanding.
Palette 9-Getting Started in Layout and Editing	B	Palette 9		Learn how to navigate the new Palette 9 and get a head start when working with pre-existing designs. This class will cover different ways to open and save designs. Working with the Palette card reader/writer box will be especially helpful for those who have machines with or without a USB connection. Learn all about the Design Database and Card Library. Editing and dissecting designs from sizing to changing the Programmable Fills will become effortless (and fun). We will even work a little with Text.
Palette 9 - Design Center	I	Palette 9 ; Palette 8 <i>Class Demo Through: Palette 9</i>		Have you been confused about .pel, .pem and .pes? In this class you will learn all of that plus what kind of images digitizes best in Palette Design Center. I will take a piece of artwork through all the stages in Design Center from cleaning up the design to adding sewing attributes. Even though I will be teaching using Palette version 9, version 8 users will easily be able to follow along for their software. You may even learn a few tricks that aren't in the manual!
Photo Embroidery in Palette 9	I	Palette 9	Lora Kesilis	The photo stitch wizards in Palette are unique in their ability to create artistic renderings of your precious photos in thread. And in Palette 9 new options have been added to the Photo wizards to enhance your ability to create beautiful embroidery designs from your photos. And, for another take on working with your photos, see how you can work within Palette 9 to print your photo onto fabric, or use iron-on transfers and add embroidered details to the image.

Class Title	Level	Product(s) Featured	Instructor	Description
Palette 9 Cross Stitch Wizard	I	Palette 9	Lora Kesilis	<p>Learn how to create the look of hand sewn cross stitch embroidery with Palette 9. It is easier than ever to create and edit beautiful cross stitch embroidery with the new features in the Palette 9 cross stitch wizard.</p> <p>This class also covers all four methods of opening an image into Palette Layout and Editing. Learn how to scan an image directly into Palette. Learn the ins and outs of using the Clipboard option. And see how the Portrait Creator can be used with the cross stitch wizard.</p>
Palette 8-Getting Started in Layout and Editing	B	Palette 8, Palette 7		<p>Get a head start when working with pre-existing designs. This class will cover different ways to open and save designs. Working with the Palette card reader/writer box will be especially helpful for those who have machines with or without a USB connection. Learn all about the Design Database and Card Library. Editing and dissecting designs from sizing to changing the Programmable Fills will become effortless (and fun). We will even work a little with Text.</p> <p>Palette 7 & 8 classes are taught "By Request Only". To request this class, please email sewathome@tacony.com. Include in your request the class title, day of the week and whether you prefer morning, afternoon or evening classes.</p>

Machines Classes

Ellisimo Upgrade 1	B	Ellisimo		<p>Precise Touch Positioning is like nothing you have ever experienced before. Get helpful information about bobbin work and experience Bobbin Work Embroidery. Resize designs instantly with Stitch Recalculation. These are just a few of the new upgrade features that you will not want to be without.</p> <p>Other Products Featured: Ellisimo Upgrade 1</p>
Bordering on the Edge	B	Ellegante with Upgrade 1 (BLG-UPG), Ellegante 2, Ellisimo Embroidery Professional Plus, Enterprise		<p>Beautiful continuous borders can be created on your Baby Lock embroidery machine with little or no fuss. Any size hoop may be used for your continuous border. This class will focus on the continuous border function built into the Baby Lock Ellegante and the Baby Lock Ellisimo. This lesson will teach you how to create and align a straight border that could be on the edge of a curtain, dress, pillowcase, etc...and a corner border for a table topper, napkin, placemat etc...</p> <p>Other Products Featured: Continuous Border Hoop, Embroiderer's Friend, Baby Lock stabilizers</p>
More than Borders	I	Ellegante with Upgrade 1 (BLG-UPG), Ellegante 2, Ellisimo Embroidery Professional Plus, Enterprise		<p>Join this fun class to optimize the Border function in your embroidery machine. I'll show you how to combine other embroidery functions with the border function to create some fun projects such as button covers, patches, and pockets. You will learn how to work from the center out to create some perfectly sized border inserts, one of which will be smocking and the other, an insert into a background of "whole cloth embroidery", also created using the Border Function. It would be helpful to take Bordering on the Edge before taking this class.</p> <p>Other Products Featured: Continuous Border Hoop, various Baby Lock stabilizers</p>

QuiltMotion Basics	B	QuiltMotion QuiltCAD Jewel Crown Jewel	Lora Kesilis	<p>Learn the basics of computer automated quilting with Baby Locks QuiltMotion software and the Baby Lock Jewel, or Crown Jewel. See how easy it is to move within the Flow Through System from designing your perfect quilting layout to stitching the quilt of your dreams. Learn to design both quilt layouts and pantographs. The various methods of placing your designs on the quilt top will be discussed. The class also covers how to pull up the bobbin thread and stitch your quilt design.</p> <p>If you are new to QuiltMotion, it is strongly suggested that you take this QuiltMotion Basics class before moving on to other QuiltMotion and PatternCAD classes.</p>
QuiltMotion - PatternCAD Basics	B	QuiltMotion QuiltCAD Jewel Crown Jewel	Lora Kesilis	<p>If you are ready to start designing your own quilting designs for your QuiltMotion system then we have the class for you. Learn how easy it is to create your own unique quilting designs and how even the simplest quilting motif can be manipulated into many different looks. You will be having fun and creating your own unique style of quilting in no time!</p> <p>If you are new to QuiltMotion, it is strongly suggested that you take QuiltMotion Basics before moving on to other QuiltMotion or PatternCAD classes.</p>

Class Title	Level	Product(s) Featured	Instructor	Description
QuiltMotion – Stipple with Style	I	QuiltMotion QuiltCAD Jewel Crown Jewel	Lora Kesilis	<p>In this class you will learn how to create and sew texture quilting from edge to edge across the surface of your quilt. Learn what type of quilt design will work best and how to optimize it so it sews continuously.</p> <p>How to pull the bobbin thread up for trimming at the end of a design is covered along with what to do if you run out of bobbin thread in the middle of your design. After taking this class you will know just how to return to sewing in the right spot. Learn how you can even “nudge” the needle to exactly the right place.</p> <p>If you are new to QuiltMotion, it is strongly suggested that you take QuiltMotion Basics before moving on to other QuiltMotion classes.</p>
QuiltMotion - Sashings and Borders	I	QuiltMotion QuiltCAD Jewel Crown Jewel	Lora Kesilis	<p>Learn how to set up a Quilt layout for a quilt with sashing between the blocks. And see how to create a pantograph for the horizontal sashing, and how to create a vertical quilting pattern for the sashings between the blocks. And then learn how to take it to the quilt and place it exactly where it needs to be.</p> <p>And if you have borders to quilt, you will love the information about using the quick border design tools. And of course we will cover how to get those borders placed and quilted.</p> <p>If you are new to QuiltMotion, it is strongly suggested that you take QuiltMotion Basics before moving on to other QuiltMotion classes.</p>

Class Title	Level	Product(s) Featured	Instructor	Description
QuiltMotion – Beyond Basics	I	QuiltMotion QuiltCAD Jewel Crown Jewel	Lora Kesilis	<p>So you have taken the QuiltMotion Basics class, and you have done a little quilting with your new system and now you are ready to experience some of the Advanced Tools that QuiltCAD offers. This is your class.</p> <p>The class will focus on using the various functions of QuiltCAD that were not covered in the Basics class including sewing and recording your own quilt designs, merging blocks, and how to use the print function to preview your quilting designs or to create your own paper pantographs for free motion quilting.</p> <p>You will also learn how to use the Advanced Tools including Repeating Patterns, Row Rippling and Triangle Blocks.</p> <p>If you are new to QuiltMotion, it is strongly suggested that you take QuiltMotion Basics before moving on to other QuiltMotion classes.</p>
QuiltMotion – Scooting Your Quilting Designs	I	QuiltMotion QuiltCAD Jewel Crown Jewel	Lora Kesilis	<p>Learn how to use Scoot to create more elaborate quilting. Although you can only Place one design in each block on your quilt layout, there is no limit on the number of designs that can be Scooted in from adjacent blocks.</p> <p>See how to design and sew a 24 inch quilted block with nine designs in it. Learn how to use Row Wrapping to Scoot whole rows of quilt patterns without getting gaps at the ends of the rows. And see how easy it is to put 13 designs into 9 blocks for a custom pantograph.</p> <p>In no time at all you will be Scooting your designs around on your quilt layouts and enjoying the creative freedom that comes with sewing outside the lines.</p> <p>If you are new to QuiltMotion, it is strongly suggested that you take QuiltMotion Basics before moving on to other QuiltMotion or PatternCAD classes.</p>

Class Title	Level	Product(s) Featured	Instructor	Description
QuiltMotion – PatternCAD Mirrors and Quick n EZ Tools	I	QuiltMotion QuiltCAD Jewel Crown Jewel	Lora Kesilis	<p>There are tools built into PatternCAD that make it easy to create your own beautiful quilt patterns even if you do not consider yourself an artist. The Quick n EZ tools are well named and this class covers how to use each of these tools including Spiral stitch, Flakes, Poly Mirrors, Bowditches, and Polygons.</p> <p>And we will also take a look at how to create your own mirror tools by hanging and adjusting new sets of mirrors.</p> <p>Creating beautiful symmetrical designs is just a couple of lines away!</p>

Pro-Stitcher[®]

Pro-Stitcher Basics	B	Pro-Stitcher Crown Jewel	Lora Kesilis	<p>Learn the basics of computer automated quilting with Baby Lock Pro-Stitcher software and the Baby Lock Crown Jewel. Learn how to load a pattern, and manipulate it, and how to position the pattern on the quilt. After taking this class you will know how to select a quilting design, size it to fit your quilt, position it on the quilt top, pull up the bobbin thread, and sew.</p>
Pro-Stitcher - Art and Stitch Basics	B	Pro-Stitcher; Art and Stitch software Crown Jewel	Lora Kesilis	<p>The Art and Stitch program that is included with Pro-Stitcher will allow you to design your own custom quilting patterns. This class is an overview of a variety of different methods available for creating quilting motifs in Art and Stitch. You will learn how to create quilt designs using vector art, how to create quilted lettering from True Type Fonts, and how to trace a backdrop image. Learn how to convert your embroidery format quilting designs for use with your Pro-Stitcher. Discover that there are Custom Shape quilting designs ready for you to use, and explore the Repeat and Magic Circle tools. And just to top it off, learn how to design and sew a quilting pattern that is larger than the reach of your Crown Jewel. It is all easy with your Baby Lock Pro-Stitcher and Art and Stitch.</p>
